

Puyallup Valley Quilter's December Block of the Month/2007

This will be a simple hexagon. It will imitate a kaleidoscope so the most difficult part will be figuring out the colors. I would like you to choose 3 light colors. I used them to mirror the light, medium and dark colors that are chosen. You can pick any color or variety of colors.

Cut out 6 triangles 4 inch equilateral one of each of the 6 colors. Arrange them with dark, light color, medium, light color, and light, light color.

We will sew the triangles 3 together to 3 together so we don't have any hard seams.
